DENVER SHP-102 power plug

www.denver.eu

Safety information

Please read the safety instructions carefully before using the product for the first time and keep the instructions for future reference.

- 1.This product is not a toy. Keep it out of reach of children.
- 2.Keep product out of the reach of children and pets to avoid chewing and swallowing.
- 3.Product operating and storage temperature is from 0 degree Celsius to 40 degree Celsius. Under and over this temperature might affect the function.
- 4.Never open the product. Touching the inside electrics can cause electric shock. Repairs or service should only be performed by qualified personnel.
- 5.This product is for dry indoor environment only.
- 6.Do not expose to heat, water, moisture, direct sunlight!
- 7.Please make sure that you plug it 100% into the wall outlet.
- 8.The direct plug-in is used as disconnect device, the disconnect device shall remain readily operable. So, make sure there is space around the power outlet for easy access.

1. Get started

Download the app called "DENVER SMART HOME" on your smart phone. It is available on Appstore and Google play. The app will ask you to register a user. Please do this by using your mobile number or email address, and then log into the app. You will be asked to create a "family". This is to make it easy to have several systems in the app at the same time. Now you need to add the power plug to the app. First, connect it to your power outlet and turn this on. Then press the on/off button for 5 seconds until the indicator flashes quickly. Push "Add Device" or + in top of app, and choose "socket", and follow on screen instructions. It will guide you through the whole setup.

Now the power plug is connected and you can make timers, countdown timers, different automatisations etc. within the app. Please notice, there are two ways to add the power plug to your system. EZ mode and AP mode. EZ mode are the easiest, but if you have problems using that, the app will guide you through the AP mode instead. In this case, just follow the in-app instructions.

2. Daily use

In your home screen of the app you can now find your power plug. Push this and you will get to power plug page. Here you can turn on, turn off, make timers etc.

3. Amazon Alexa & Google assistant

It is possible to use the power plug with Amazon Alexa & Google assistant. Use the app to add this function. Instructions are shown in the app. You can also find the full manual in English on our website. Please enter www.denver.eu and use the search function to find SHP-102.

If you by any means need to reset the power plug, this is done by pushing the on/off button 5 seconds. Now you can set it up from start again.

Input Voltage: AC 230V/50Hz  
Output: 15A Maximum 3680W  
Wireless Type: 2.4GHz  
App Support: iOS/Android  
Do not use smart plugs that are plugged into each other.  
Do not cover the smart plug.

Please notice - All products are subject to change without any notice. We take reservations for errors and omissions in the manual.

Electric and electronic equipment contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment) is not handled correctly.

Electric and electronic equipment is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment should not be disposed of with other household waste, but should be disposed of separately.

All cities have established collection points, where electric and electronic equipment can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type SHP-102 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.denver.eu and then click the search ICON on top line of website. Write model number: SHP-102. Now enter product page, and red directive is found under downloads/other downloads. Operating Frequency Range: 2412 ~ 2472 MHz  
Max Output Power: 3680W
