Charge It

- On the right earcup, carefully plug the Type-C cable into Type-C charging port. and connect the other end of the cable to either a computer USB port or to a USB-compatible car or wall charger.
- Solid red LED light will appear to indicate when the headphone is charging.
- When charging is complete, the LED light will turn Blue.
- Charging time is approximately 2 hours.

Turn It On/Off

- Press & hold the power button on the right side of the headphone for about 3 seconds until the LED indicator light turns on.
- Press & hold the power button again for 4 seconds until the LED light turns off.

Pair & Connect With New Device

- Power on the wireless bluetooth headphone(refer to the "Turn It On" section).
- To pair the headphone with a new device,the Red and blue LED light blink to indicate it is ready to be paired with your device.

- On your Bluetooth-enabled smartphone, tablet or media player, navigate to the Bluetooth settings menu, turn on the Bluetooth feature, and search for new devices. After a few seconds you will see "DENVER BTN-210" listed.
- Tap this model to select it. Solid blue LED light indicates your device has successfully paired.
- With your previously paired device's Bluetooth turned on and in range, the headphone will automatically reconnect to the last Bluetooth device it was connected to.

NOTE: If the headphone is not used within 5 minutes, the headphones will automatically turn off to save battery.

Play

- Connect your device to the headphone via Bluetooth (refer to the "Pair & Connect" section)
- Open your favorite music app and press play.
- Control the music, track & volume from your device, or control the music & volume. Press the Power button once to play/pause music & answer calls, press it twice to redial the last number called on your phone, and press & hold it to reject an incoming call.
- All audio, including music, games, videos, and notifications will be routed through the headphone.

Touch Function

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen below. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, DENVER A/S declares that the radio equipment type BTN-210 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.denver.eu and then click the search ICON on topline of website. Write modelnumber: BTN-210 Now enter product page, and red directive is found under downloads/other downloads.

Operating Frequency Range 2402-2480MHz:

Max Output Power: 0.5mW

Warning Lithium battery inside
