Safety information

Please read the safety instructions carefully before using the product for the first time and keep the instructions for future reference.

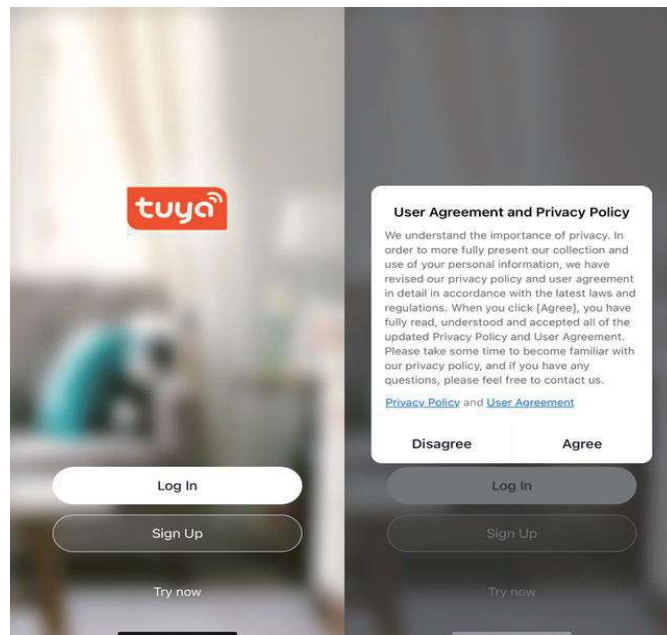

1. This product is not a toy. Keep it out of reach of children.
2. Keep product out of the reach of children and pets to avoid chewing and swallowing.
3. Product operating and storage temperature is from 0 degree Celsius to 40 degree Celsius. Under and over this temperature might affect the function.
4. Never open the product. Touching the inside electrics can cause electric shock. Repairs or service should only be performed by qualified personnel.
5. Do not expose to heat, water, moisture, direct sunlight!
6. The unit is not waterproof. If water or foreign objects enter the unit, it may result in fire or electric shock. If water or a foreign object enters the unit, stop use immediately.
7. The direct plug-in adapter is used as disconnect device, the disconnect device shall remain readily operable. So, make sure there is space around the power outlet for easy access.

Quick Start Guide

- Prepare your Wi-Fi network and password.
- Make sure your mobile device is running iOS 9.0 or higher or Android 5.0 or higher.
- Make sure the 2.4 GHz Wi-Fi network is used. 5 GHz is not supported.
- Download and install the Tuya Smart app from App store or Google Play.

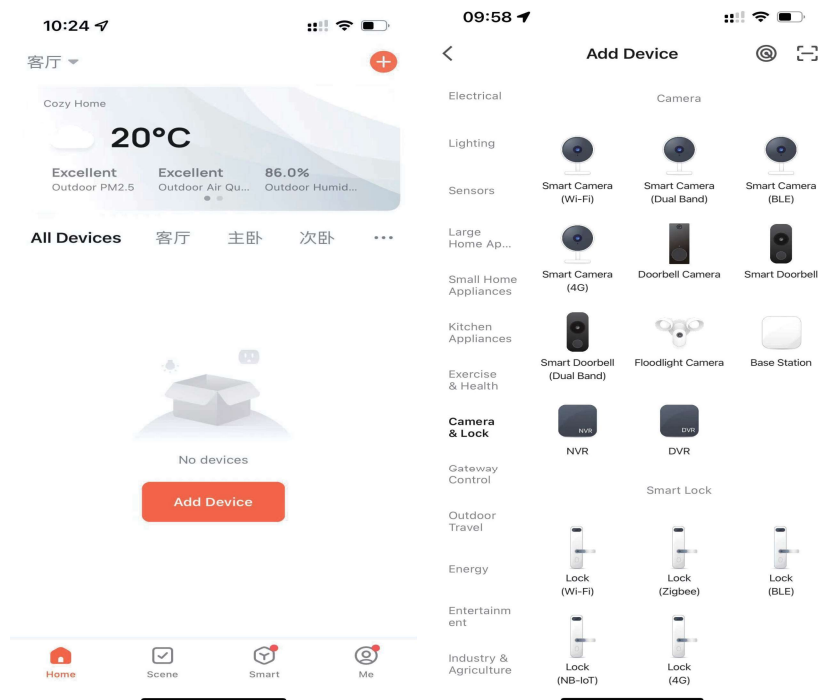

Open the App, and it will ask you to register your device. Select your country, enter your email, get Verification Code, and input your favorite password to confirm.

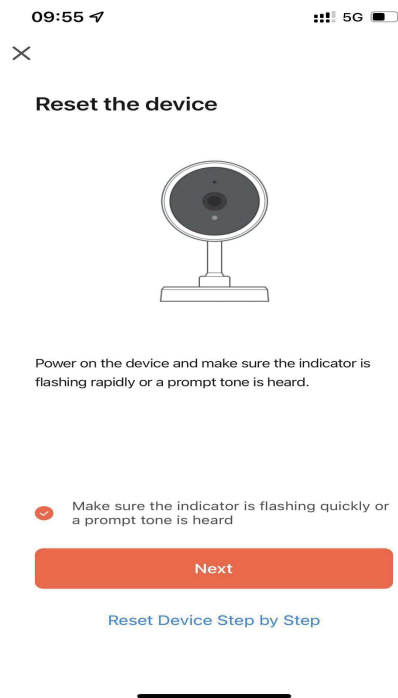

Adding Smart Wi-Fi Camera:

- Power on: Connect the camera to a suitable power supply.
- Wait for about 20 seconds until you hear “Camera starts”, then further 20 - 30 seconds later “please configure network”.
Note: If reset is required, use the reset pin to press the Reset for several seconds until the camera starts to beep.
- Open the “Tuya Smart” App, click “+”, and then “Camera & Lock” and “Smart Camera” to add a new Smart Wi-Fi Camera on your App.

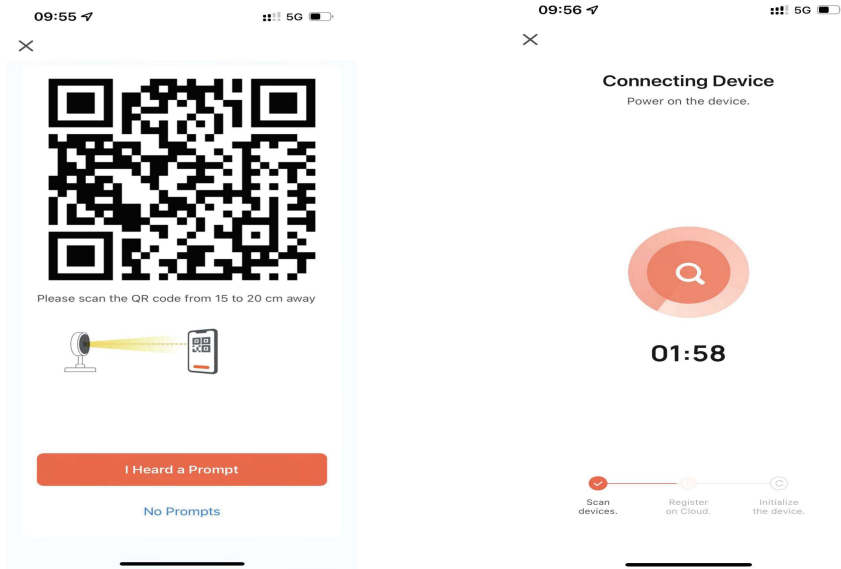

- When you see the indicator on the camera is flashing quickly, click “Next”.

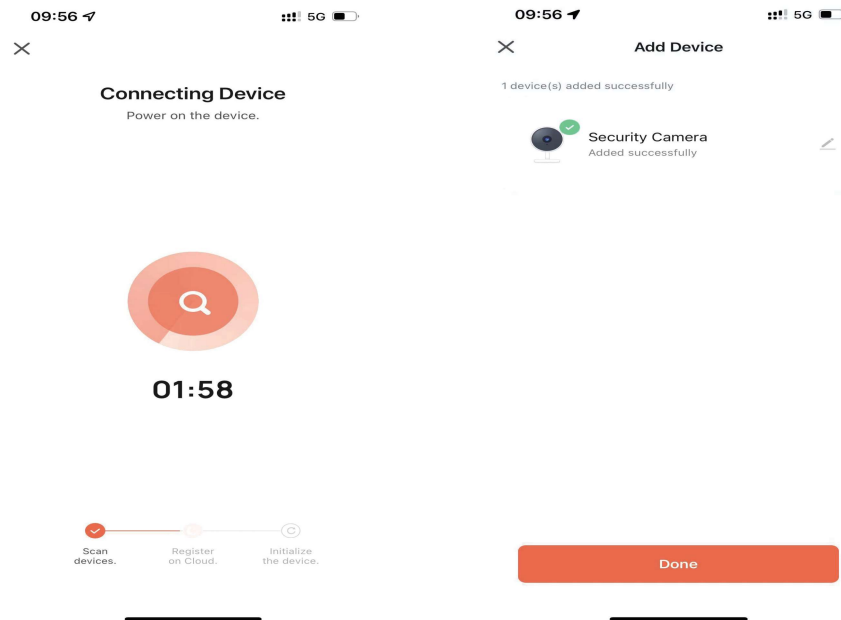

- Select the same connected Wi-Fi network of your phone or tablet and input password of the Wi-Fi, then tap “Confirm”.

- Tap “Continue”, the mobile phone will display a QR code. Use the camera to scan the QR code at a distance of 15 to 20 cm from the mobile phone.

- Tap “I Heard a Prompt” when you hear a prompt sound. The Smart Wi-Fi Camera is trying to connect to the App. Once connected successfully, the App will show “Added successfully” & “Security Camera Device added successfully” with a voice message “camera online”.

- Tap “Done” to view the live stream of your camera.

Detection Alarm Settings:

Tap on “Detection Alarm Settings”, then you can turn on/off the Motion Detection Alarm. Once this is turned on, any motions detected will leave a notification. Notifications can be checked on the “Message” tab of the App. Motion Alarm Sensitivity Level can be set:

- Low Sensitivity - Records any movements within 5 meters
- Medium Sensitivity - Records any movements within 10 meters
- High Sensitivity - Records any movements within 15 meters

Remove Device: Tap on “Remove Device” if you want to delete this camera.

Note: Micro SD card (not included) will be used for Event Recording or Non-Stop Recording. Upon reaching its maximum storage capacity, it will automatically overwrite the oldest recording. This will erase the oldest recording and replace it with the new recording. For longer access to important recordings, it is recommended to move the recordings from the micro SD card to your computer etc. Recorded videos can be seen under the Playback icon.

AC/DC ADAPTER

Manufacturer's name, Commercial registration number and address	Company name: Shenzhen Keyu Power Technology Co.,LTD Adress: 1-8F,NO,13,Lane 3,Yuquan East Road,the 2nd Industrial park,Yulv,guangming District,Shenzhen,Guangdong,China Commercial registration Number: 91440300591889293H
Model identifier	KA06E-0501000EU
Input voltage	100~240V
Input AC frequency	50~60Hz
Output voltage	4.75~5.3V
Output current	1.0A
Output power	5.0W
Average active efficiency	73.62%
Efficiency at low load	64.59%
No-load power consumption	<0.1W

Electric and electronic equipment contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment) is not handled correctly.

Electric and electronic equipment is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment should not be disposed of with other household waste, but should be disposed of separately.

All cities have established collection points, where electric and electronic equipment can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type IIC-172 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: denver.eu and then click the search ICON on topline of website. Write model number: IIC-172. Now enter product page, and RED directive is found under downloads/other downloads.

Operating Frequency Range: 2.4GHz

Max Output Power: 3.0W
